

AMIATC

Topics Covered under ADVANCED **HYDRAULIC & PNEUMATICS – AHP Vii**

Hydraulic & Pneumatic

HYDRAULIC :

- Describes Components of Hydraulic Systems.
- Hydraulic Systems & Their Functions.
- Hydraulic Components Maintenance Procedures.
- Hydraulic Filters & Strainers, Reservoirs.
- Hydraulic Accumulators, Pumps, Piping, Tubing.
- Hydraulic Horse, Control Valves, Relief Valves, etc.
- Hydraulic Actuating Devices etc.

PNEUMATIC:

- This Pneumatic Training Course aims to Familiarize Participants with Design
- Pneumatic Construction.
- Pneumatic Operation of Pneumatic Components.

- Pneumatic Includes the interpretation of circuit Diagrams.
- Pneumatic Symbols as well as the Construction of Control Systems.

- **Individual Care SYSTEMS**

Duration 200 hr, 4 Months.

Course Fee @ 20000/-
